Name of the faculty: Chetna

**Discipline:** Civil

Semester: 6th

Subject: C.M.A

Lesson Plan Duration: 15 week (from March to July 2022)

#### **\*\*Work Load (Lecture) per week (in hours):**Theory-05

| Week | Theory          |   |  |  |  |
|------|-----------------|---|--|--|--|
|      | Lecture<br>Day  | Topic (including assignment/test)   |  |  |  |
| 1st  | 1 <sup>st</sup> | UNIT:-1   |  |  |  |
|      |                 | Introduction to construction management   |  |  |  |
|      | 2 <sup>nd</sup> | Significance of construction management, Main objectives of construction management and overview of the subject       |  |  |  |
|      | 3 <sup>rd</sup> | Functions of construction management, planning, organising, staffing, directing, controling and coordinating          |  |  |  |
|      | 4 <sup>th</sup> | Classification of construction into light, heavy and industrial   |  |  |  |
|      | 5 <sup>th</sup> | construction.Stages in construction from conception to completion   |  |  |  |
| 2nd  | 1 <sup>st</sup> | The construction team: owner, engineer, architect and contractors, their function and inter relationship              |  |  |  |
|      | 2 <sup>nd</sup> | Unit 2:-<br>Importance of construction planning. Stages of construction<br>planning- Pre-tender stage, contract stage |  |  |  |
|      | 3 <sup>rd</sup> | Scheduling construction works by bar charts-  |  |  |  |

|     | 4 <sup>th</sup> | definition of activity, identification of activities.   |  |  |  |  |
|-----|-----------------|---|--|--|--|--|
|     | 5 <sup>th</sup> | Preparation of bar charts for simple construction work  |  |  |  |  |
| 3rd | 1 <sup>st</sup> | Preparation of schedules for labour, materials, machinery and finances of small work, Limitation of bar chart |  |  |  |  |
|     | 2 <sup>nd</sup> | Scheduling by network techniques-Introduction to network techniques, PERT and CPM                             |  |  |  |  |
|     | 3 <sup>rd</sup> | Differences between PERT and CPM  |  |  |  |  |
|     | 4 <sup>th</sup> | UNIT:-3   |  |  |  |  |
|     |                 | Organization: Types of organizations  |  |  |  |  |
|     | 5 <sup>th</sup> | Disscuss previous chapter problem   |  |  |  |  |
| 4th | 1 <sup>st</sup> | Line, line and staff, functional  |  |  |  |  |
|     | 2 <sup>nd</sup> | characteristics of organization   |  |  |  |  |
|     | 3 <sup>rd</sup> | Assignements given based on samples question papers   |  |  |  |  |
|     | 4 <sup>th</sup> | UNIT:- 4  |  |  |  |  |
|     |                 | Principle of storing and stacking materials at site   |  |  |  |  |
|     | 5 <sup>th</sup> | Class test  |  |  |  |  |
| 5th | 1 <sup>st</sup> | Location of equipment   |  |  |  |  |
|     | 2 <sup>nd</sup> | Preparation of actual job layout for a building   |  |  |  |  |
|     | 3 <sup>rd</sup> | Organizing labour at site.  |  |  |  |  |
|     | 4 <sup>th</sup> | UNIT:-5   |  |  |  |  |
|     |                 | Conditions of construction workers in India, wages paid to workers  |  |  |  |  |
|     | 5 <sup>th</sup> | Important provisions of the following Acts;-Labour welfare Fund<br>Act 1936 ( as amended )                    |  |  |  |  |
| 6th | 1 <sup>st</sup> | Minimum Wages Act 1948 (as amended)   |  |  |  |  |
|     | 2 <sup>nd</sup> | Revision  |  |  |  |  |
|     | 3 <sup>rd</sup> | UNIT:-6   |  |  |  |  |

|      |                 | Introduction   |
|------|-----------------|--|
|      | 4 <sup>th</sup> | Methods of recording progress  |
|      | 5 <sup>th</sup> | Analysis of progress   |
| 7th  | 1 <sup>st</sup> | Taking corrective actions keeping head office informed                             |
|      | 2 <sup>nd</sup> | SESSIONAL WEEK   |
|      | 3 <sup>rd</sup> |  |
|      | 4 <sup>th</sup> |  |
|      | 5 <sup>th</sup> | Cost time optimization for simple jobs -   |
| 8th  | 1 <sup>st</sup> | Direct cost and indirect cost  |
|      | 2 <sup>nd</sup> | indirect cost, variation with time   |
|      | 3 <sup>rd</sup> | cost optimization  |
|      | 4 <sup>th</sup> | UNIT- 7  |
|      |                 | Inspection and QualityControl  |
|      | 5 <sup>th</sup> | Need for inspection and quality control  |
| 9th  | 1 <sup>st</sup> | Principles of inspection   |
|      | 2 <sup>nd</sup> | Stages of inspection and quality control for- Earth work                           |
|      | 3 <sup>rd</sup> | Stages of inspection and quality control for-masonary work                         |
|      | 4 <sup>th</sup> | Stages of inspection and quality control for-RCC                                   |
|      | 5 <sup>th</sup> | Disscussing previous problem   |
| 10th | 1 <sup>st</sup> | Stages of inspection and quality control for-Sanitary and water<br>supply services |
|      | 2 <sup>nd</sup> | UNIT-8   |
|      |                 | Accidents – causes and remedies  |
|      | 3 <sup>rd</sup> | Safety measures for-Excavation work  |
|      | 4 <sup>th</sup> | Safety measures for-Drilling   |
|      | 5 <sup>th</sup> | Safety measures for Blasting   |

| 11th | 1 <sup>st</sup> | Safety measures for-Hot bitumenous work  |
|------|-----------------|--|
|      | 2 <sup>nd</sup> | Safety measures for-Scaffolding, ladders, form work                                    |
|      | 3 <sup>rd</sup> | Safety measures for-Demolitions.Safety campaign and safety devices                     |
|      | 4 <sup>th</sup> | Assignements given based on samples question papers                                    |
|      | 5 <sup>th</sup> | Class test   |
| 12th | 1 <sup>st</sup> | UNIT:-9  |
|      |                 | Introduction, technical sanction. Administrative approval, allotment of funds,         |
|      | 2 <sup>nd</sup> | re-appropriation of fund bill,contactor ledger   |
|      | 3 <sup>rd</sup> | Measurement book running and final account bills complete,                             |
|      | 4 <sup>th</sup> | preparation of bill of quantities (BOQ),   |
|      | 5 <sup>th</sup> | Completion certificate& report.  |
| 13th | 1 <sup>st</sup> | Hand receipt, aquittance roll., muster roll labour                                     |
|      | 2 <sup>nd</sup> | Casual labour roll-duties and responsibility of different cadres                       |
|      | 3 <sup>rd</sup> | Budget-stores, returns account of stock, misc,P.W advances T & P-<br>verification      |
|      | 4 <sup>th</sup> | road metal material charged direct to work   |
|      | 5 <sup>th</sup> | Survey report  |
| 14th | 1 <sup>st</sup> | Account expenditure & revenue head, remittance and deposit head,<br>definition of cash |
|      | 2 <sup>nd</sup> | preccaution in custody of cash book, imprest account, temporary<br>advance             |
|      | 3 <sup>rd</sup> | Treasury challan,  |
|      | 4 <sup>th</sup> | account register, stock register.  |
|      | 5 <sup>th</sup> | prepration of final bills.   |
| 15th | 1 <sup>st</sup> | Assignements given based on samples question papers                                    |
|      | 2 <sup>nd</sup> | Revision of whole syllabus   |

| 3 <sup>rd</sup> | SESSIONAL WEEK |
|-----------------|----------------|
| 4 <sup>th</sup> |                |
| 5 <sup>th</sup> |                |
|                 |                |

| Subject              | : | Earthquake Resistant Building Construction |
| Lesson PlanDuration: |   | 15 Weeks(from March. 2022 to july2022 )    |

| Week             | Theory      |   |  |  |  |
|------------------|-------------|---|--|--|--|
|                  | Lecture Day | Topic (including assignment / test)   |  |  |  |
| 1st              | 1           | Introduction to the Subject and its necessity   |  |  |  |
|                  | 2           | 1. Elements of Engineering Seismology :   |  |  |  |
|                  |             | General features of tectonic of seismic regions.  |  |  |  |
|                  | 3           | Causes of earthquakes, Seismic waves,   |  |  |  |
| 2nd              | 1           | Earthquake size (magnitude and intensity),  |  |  |  |
|                  | 2           | Epicentre, Seismograph,   |  |  |  |
|                  | 3           | Classification of earthquakes,  |  |  |  |
| 3rd              | 1           | Seismic zoning map of India,  |  |  |  |
|                  | 2           | Static and Dynamic Loading, Fundamental period.   |  |  |  |
|                  | 3           | <b>2. Seismic Behaviour of Traditionally-Built Constructions of India :</b><br>Performance of building during earthquakes                 |  |  |  |
| 4th              | 1           | Mode of failure: Out-of-plane failure, in-plane failure,  |  |  |  |
|                  | 2           | Mode of failure: Diaphragm failure, Connection failure,   |  |  |  |
|                  | 3           | Mode of failure: Non-structural components failure  |  |  |  |
| 5 <sub>th</sub>  | 1           | Revision/Assignment-I   |  |  |  |
|                  | 2           | Sessional Test -I   |  |  |  |
|                  | 3           | <b>3. Special construction method :</b><br>Special construction methods   |  |  |  |
| 6.               | 1           | Special construction methods  |  |  |  |
| 6 <sub>th</sub>  | 2           | Tips and Precautions to be observed while planning,   |  |  |  |
|                  | 3           | Designing and Construction of earthquake resistant building.  |  |  |  |
| 7.               | 1           | Designing and Construction of earthquake resistant building.  |  |  |  |
| 7 <sub>th</sub>  | 2           | Designing and Construction of earthquake resistant building.  |  |  |  |
|                  | 3           | <ul> <li>4. Introduction to various Seismic IS codes :<br/>IS: 4326, IS: 13828,</li> </ul>  |  |  |  |
| 8 <sub>th</sub>  | 1           | IS: 1893(Part 1),   |  |  |  |
| oth              | 2           | IS: 154326 and  |  |  |  |

| 13 <sup>th</sup> | 1 | Everyises on writing detailed encoifications of different types of      |
|------------------|---|---|
| 15               | 1 | - Exercises on writing detailed specifications of different types of    |
|                  |   | building works from excavation to foundations, superstructure and       |
|                  |   | finishing operation   |
|                  | 2 | Revision  |
|                  | 3 | - Exercises on preparing tender documents for the following             |
|                  |   | a) Earth work   |
|                  | 4 | c) RCCworks   |
|                  |   | d) Pointing, plastering and flooring                                    |
| 14 <sub>th</sub> | 1 | e) White-washing, distempering and painting                             |
| 1.10             | - | f) Wood work includingpolishing   |
|                  |   | g) Sanitary and water supply installations                              |
|                  | 2 | j) Construction of W.B.M/Concrete road                                  |
|                  | 3 | 9. Exercises on preparation of comparative statements for item rate     |
|                  |   | contract  |
|                  | 4 | 10. Valuation   |
|                  |   | a) Purpose of valuation, principles of valuation                        |
| 15 <sup>th</sup> | 1 | b) Definition of various terms related to valuation like depreciation,  |
|                  |   | sinking   |
|                  |   | fund, salvage and scrap value, market value, fair rent, year's purchase |
|                  |   | etc.  |
|                  | 2 | c) Methods of valuation   |
|                  | _ | (i) replacement cost method   |
|                  | 3 | c) Methods of valuation   |
|                  | 5 | (ii) rental return method   |
|                  |   | Assignment-III  |
|                  | 4 | Assignment-III  |

#### Lesson Plan

| Name of the faculty  | : REEMA                                     |
|----------------------|---|
| Discipline           | : Civil Engineering                         |
| Semester             | : 6 <sup>th</sup> Semester                  |
| Subject              | : Steel Structures Design                   |
| Lesson Plan Duration | : 15 weeks (from March, 2022 to July, 2022) |

Work Load (Lecture) per week (in hours): Lectures-04

| Week            | Lecture | Theory  |
|-----------------|---------|---|
|                 | Day     | Topic ( Including assignment/test )   |
| 1 <sup>st</sup> | 1       | Properties of structural steel as per IS code   |
|                 | 2       | Designation of structural steel as per IS 800-2007                                      |
| 1               | 3       | Riveted Connections- Types of rivets, permissible stresses in rivets                    |
|                 | 4       | Specifications for riveted joints as per IS 800-2007. Failure of a riveted joint.       |
|                 | 5       | Assumptions in the theory of riveted joints. Strength & Specification of riveted joints |
| $2^{nd}$        | 6       | Design of riveted joints for axially loaded members, Numerical problems and doubts      |
| 2               | 7       | Bolted and welded connections- Types of bolts and bolted joints                         |
|                 | 8       | Specification for bolted as per IS 800-2007, Types of welds and welded joints           |
|                 | 9       | Advantages & Disadvantages of welded joints and bolted joints                           |
| 3 <sup>rd</sup> | 10      | Design of fillet & butt weld, Plug and slot welds                                       |
| 5               | 11      | Numerical problems and doubts   |
|                 | 12      | Tension Members- Analysis of single angle section                                       |
|                 | 13      | Design of single angle section  |
| $4^{\text{th}}$ | 14      | Numerical problem on single angle section   |
| 4               | 15      | Analysis of double angle section  |
|                 | 16      | Design of double angle section  |
|                 | 17      | Assignment-I & Revision   |
| $5^{\text{th}}$ | 18      | Sessional Exam  |
| 5               | 19      | Numerical problems on double angle section  |
|                 | 20      | Riveted connection of single angle section as per IS 800-2007                           |
|                 | 21      | Numerical problems on riveted connection of single angle section                        |
| 6 <sup>th</sup> | 22      | Riveted connection of double angle section as per IS 800-2007                           |
| 0               | 23      | Numerical problem on riveted connection of double angle section                         |
|                 | 24      | Numerical problems and doubts in Tension members  |
|                 | 25      | Compression Members- Analysis of single angle section Design of single angle section    |

|                  | 26 | Numerical problem on single angle section  |
|------------------|----|--|
| $7^{th}$         | 27 | Analysis of double angle section, Design of double angle section                     |
| -                | 28 | Numerical problems on double angle section   |
|                  | 29 | Numerical problem on single and double angle section and doubts                      |
| $8^{\text{th}}$  | 30 | Riveted connection of single angle section as per IS 800-2007                        |
|                  | 31 | Numerical problems on riveted connection of single angle section                     |
|                  | 32 | Riveted connection of double angle section as per IS 800-2007                        |
|                  | 33 | Numerical problem on riveted connection of double angle section                      |
| oth              | 34 | Numerical problems and doubts in Tension members                                     |
| 9 <sup>th</sup>  | 35 | Roof Trusses – Form of trusses, pitch of roof truss                                  |
| -                | 36 | Spacing of truss, purlins  |
|                  | 37 | Sessional Exam   |
| 1 oth            | 38 | Connection between purlin and roof covering  |
| 10 <sup>th</sup> | 39 | Connection between purlin and principal rafter                                       |
| -                | 40 | Columns- Concept of buckling of columns  |
|                  | 41 | Effective length and slenderness ratio   |
| 11 <sup>th</sup> | 42 | Permissible stress in compression as per IS 800 for different end conditions         |
| 11               | 43 | Analysis and Design of axially loaded columns single section steel column            |
| -                | 44 | Beam and column connections, Types of bases  |
|                  | 45 | Frame and seated connections   |
| 12 <sup>th</sup> | 46 | Numerical problems   |
| 12               | 47 | Beams- Analysis of single section simply supported laterally restrained steel beams. |
| -                | 48 | Design of single section simply supported laterally restrained steel beams.          |
|                  | 49 | Numerical problems   |
| 13 <sup>th</sup> | 50 | Introduction to plate girder   |
| 15               | 51 | Functions of various elements of a plate girder                                      |
|                  | 52 | Numerical problems   |
|                  | 53 | Fabrication of steel structure, Erection of steel structure                          |
| $14^{\text{th}}$ | 54 | Masonry Structures- Design of brick column   |
| 17               | 55 | Design of wall foundations   |
|                  | 56 | Numerical problems   |
|                  | 57 | Assignment and Revision  |
| 15 <sup>th</sup> | 58 | Revision   |
| 1.5              | 59 | Sessional Exam   |
| ľ                | 60 | Revision   |

#### Lesson Plan

| Name of the faculty  | : REEMA                                     |
|----------------------|---|
| Discipline           | : Civil Engineering                         |
| Semester             | : 6 <sup>th</sup> Semester                  |
| Subject              | : Steel Structures Drawing                  |
| Lesson Plan Duration | : 15 weeks (from March, 2022 to July, 2022) |

Work Load (Lecture) per week (in hours): Practicals-03

| Week             | Lecture          | Theory  |
|------------------|------------------|---|
| t et             | Day              |   |
| 1 <sup>st</sup>  | 1 <sup>st</sup>  | Roof Truss – Drawing of Fink Roof Truss with details of joints                          |
| 2 <sup>nd</sup>  | 2 <sup>nd</sup>  | fixing details of purlins and roof sheets   |
| 3 <sup>rd</sup>  | 3 <sup>rd</sup>  | Column and Column Bases - Drawing of splicing of steel columns                          |
| 4 <sup>th</sup>  | 4 <sup>th</sup>  | Drawings of slab base   |
| 5 <sup>th</sup>  | 5 <sup>th</sup>  | gusseted base and grillage base for single section steel columns.                       |
| 6 <sup>th</sup>  | 6 <sup>th</sup>  | Sealed and Framed Beam to Beam Connections  |
| 7 <sup>th</sup>  | 7 <sup>th</sup>  | -do-  |
| 8 <sup>th</sup>  | 8 <sup>th</sup>  | Sealed and Framed Beam to Column Connections  |
| 9 <sup>th</sup>  | 9 <sup>th</sup>  | -do-  |
| 10 <sup>th</sup> | 10 <sup>th</sup> | Plan and Elevation of Plate Girder with details at supports and connection of stiffness |
| 11 <sup>th</sup> | 11 <sup>th</sup> | -do-  |
| 12 <sup>th</sup> | 12 <sup>th</sup> | flange angles and cover plate with web highlighting curtailment of plates               |
| 13 <sup>th</sup> | 13 <sup>th</sup> | -do-  |
| 14 <sup>th</sup> | 14 <sup>th</sup> | Draw at least one sheet using CAD software  |
| 15 <sup>th</sup> | 15 <sup>th</sup> | -do-  |
